

Laszlo Corporation

CERTIFICATE OF QUALITY

ETHYL ACETATE
(Ethyl ether of acetic acid, technical grade)
Brand A, GOST 8981-78

Quality performances

	Standard requirements	Actual performances
1. Appearance	Transparent liquid substance without mechanical impurities	corresponds
2. Chromaticity, units of Hasen, max	5	corresponds
3. Density at 20 °C, g/cm ³	0,898-0,900	0,900
4. Weight fraction of base substance, %, min	99,80	99,9
5. Weight fraction of acids in terms of acetic acid, %, max	0,004	0,003
6. Weight fraction of fixed residue, %, max	0,001	0,001
7. Temperature range of distillation at pressure 760 mm Hg 95 % (by volume) of product should be distilled off within temperature range, °C	75-78	77-78
8. Weight fraction of water, %, max	0,1	0,02
9. Relative volatility (by ethyl ether)	2-3	2,8

The product corresponds to brand A.

The product indicated in the present certificate corresponds to quality standards of Russian Federation and can be shipped for export.
