

Laszlo Corporation

SPECIFICATION

Date of Profile: 9/16/2009

Material Name Acetone

Volume: FCL - DRUMS

Status RUSSIAN IMPORT

Lead Time: 8 WEEKS

Analysis

CHARACTERISTICS	SUPERIOR GRADE	1 ST GRADE	2 ND GRADE
Acetone, min	99.75%	99.5%	99.0%
Density @ 20° C, gr/c3	0.789 – 0.791	0.789 – 0.791	0.789 – 0.792
Water, max	0.2%	0.5%	0.8%
Methyl Alcohol, max	0.05%	0.05%	Doesn't Stand
Acetic Acid, max	0.001%	0.002%	0.003%
Stability to oxidation by			
Manganese acidic potassium, min	4	2	0.75
Acetone Technology, AUSS 2768-84 rev.12			
Chemical Formula – CH ₃ COCH ₃			
Relative molecular mass – 58.08 (according to international atomic mass of 1987)			

Acetone is transported by all modes of transportation in closed vehicles, in accordance with the rules of carriage of goods, operating in this mode of transport.

Warranty period of storage at sitona steel, aluminum and galvanized tanks and barrels – three months in the glass – one year from the date of manufacture.
